UNITED STATES PATENT AND TRADEMARK OFFICE CERTIFICATE OF CORRECTION

PATENT NO.

DATED

: 6,786,364 B2

: September 7, 2004

INVENTOR(S) : McBride

Page 1 of 4

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Title page illustrating a drawing figure should be deleted, and substitute therefor title page illustrating a figure as shown on the attached sheet.

Delete drawing sheets 1&2 and substitute therefore drawing sheets 1&2. (Attached)

Signed and Sealed this

First Day of February, 2005

JON W. DUDAS Director of the United States Patent and Trademark Office

(57) ABSTRACT

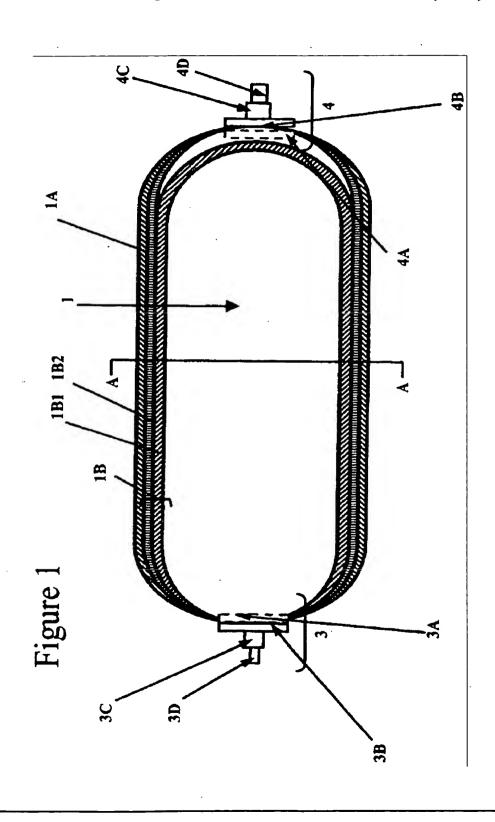

The system of the present invention has a flexible bladder designed to provide for the transfer of liquids from a storage/transport unit to vehicles without the necessity of pumps and/or motors. The system includes a flexible, collapsible bladder that uses compressed gas or air, or a pressurized liquid, to pressurize the unit. The bladder is constructed with a flexible internal diaphragm which extends from a portion of the interior of the bladder, and separates the ends of the bladder. The system further comprises removable means to inject air, gas or fluid into the first end of the bladder and removable means to inject and expet the fluid stored in the second end of the bladder.
